**RATE 6
GENERAL SERVICE**

APPLICABILITY.

Except as provided in Rate 6L, this rate is applicable to any commercial, industrial, or governmental customer with a Maximum Demand of less than 1,000 kilowatts who uses the Company's electric service hereunder for all requirements. Direct current requirements provided under another rate immediately prior to September 2, 1975, will, however, also be provided hereunder.

GENERAL SERVICE – TIME OF DAY.

Time of day charges shall apply to (1) any customer with a Maximum Demand of 500 kilowatts or more, but less than 1,000 kilowatts, in three of the twelve months preceding the billing month, one of which occurs during the three months preceding the billing month, (2) successors to customers served under these charges immediately prior to the date of succession whose estimated Maximum Demands meet the demand requirements in clause (1) above, (3) new customers whose estimated Maximum Demands meet the demand requirements in clause (1) above, and (4) any customer previously billed hereunder pursuant to clauses (1) or (2), except as otherwise provided below.

These charges shall not be applicable to customers or their successors with electric space heating taking service under the Heating with Light provision of Rider 25 prior to November 23, 1977, except upon written application by the customer to the Company.

If a customer at one time was served pursuant to (1) above on General Service – Time of Day and has a Maximum Demand which (A) has not exceeded 400 kilowatts in any month of the 16-month period preceding the billing month, or (B) has not equaled or exceeded 500 kilowatts in any month of the 24-month period preceding the billing month, such customer may elect, in written application to the Company, to be served on General Service – Non-Time of Day. General Service – Time of Day shall not again be applicable until such customer meets the requirements of General Service – Time of Day.

GENERAL SERVICE – NON-TIME OF DAY.

General Service – Non-Time of Day charges shall apply to all other customers qualifying for service under this rate.

CHARGES.

General Service – Time of Day.

Monthly Customer Charge.

The Monthly Customer Charge shall be:..... \$39.93

Demand Charge.

Charge per kilowatt for all kilowatts of Maximum Demand for the month:

For Summer Months \$14.24
For All Other Months \$11.13

For the purposes hereof, the Summer Months shall be the customer's first monthly billing period with an ending meter reading date on or after June 15 and the three succeeding monthly billing periods.

* **Energy Charge.**

Charge per kilowatt-hour for kilowatt-hours supplied in the month:

For kilowatt-hours supplied
during Energy Peak Periods 5.599¢
during Energy Off-Peak Periods 2.341¢

General Service – Non-Time of Day.

Monthly Customer Charge.

The Monthly Customer Charge shall be:..... \$8.83

Demand Charge.

Charge per kilowatt for all kilowatts of Maximum Demand for the month:

For Summer Months \$14.24
For All Other Months \$11.13

In accordance with the Application of Demand Charge provisions of this rate, there shall be no demand charge as such for certain small customers, but in lieu thereof, such customers shall pay a charge per kilowatt-hour in addition to the energy charges of this rate.

The in-lieu of demand charge per kilowatt-hour for kilowatt-hours supplied in the month:

For Summer Months 6.057¢
For All Other Months 4.798¢

(Continued on Sheet No. 25)

**ELECTRONIC REPLICATION OF SHEET ON FILE WITH ICC
- Font and Format May Vary - Content is Identical -**

**RATE 6
GENERAL SERVICE**

(Continued from Sheet No. 24)

CHARGES. (CONTINUED)

General Service – Non-Time of Day. (Continued)

Demand Charge (Continued).

For the purposes hereof, the Summer Months shall be the customer's first monthly billing period with an ending meter reading date on or after June 15 and the three succeeding monthly billing periods.

* **Energy Charge.**

Charge per kilowatt-hour for kilowatt-hours supplied in the month:

For the first 30,000 kilowatt-hours	4.247¢
For the next 470,000 kilowatt-hours	3.167¢
For all over 500,000 kilowatt-hours	3.118¢

Late Payment Charge.

The late payment charge provided for in the Terms and Conditions of this Schedule of Rates shall be applicable to all charges under this rate.

Minimum Charge.

The minimum monthly charge shall be the Monthly Customer Charge.

* **Maximum Charge.**

For customers with demand meters, the average cost of electricity hereunder in any month, exclusive of the Monthly Customer Charge, shall not exceed the Maximum Charge per kilowatt-hour, provided, however, that such guaranteed charge shall not operate to reduce the customer's bill to an amount less than the Minimum Charge.

The Maximum Charge per kilowatt-hour shall be: 20.502¢

MAXIMUM DEMAND.

For General Service – Time of Day customers, the Maximum Demand in any month shall be the highest 30-minute demand established during the Demand Peak Periods in such month.

For General Service – Non-Time of Day customers, the Maximum Demand shall be the highest 30-minute demand established at any time during such month.

APPLICATION OF DEMAND CHARGE.

The Company shall provide a demand meter and the demand charge shall apply when a customer's monthly kilowatt-hour use exceeds 2,000 kilowatt-hours in three of the twelve months preceding the billing month; or if either his Maximum Demand or monthly kilowatt-hour use is estimated to exceed 10 kilowatts or 2,000 kilowatt-hours, respectively, for at least three months of the next 12-month period. Any customer to whom the demand charge would not ordinarily apply under the preceding sentence may, at his request and upon payment of appropriate meter rentals, be provided with a demand meter and be billed the demand charge rather than the charge in lieu thereof. In such case, meter rentals shall be payable for the period during which the customer elects to retain the meter, but not less than twelve months, unless he becomes entitled to a demand meter prior to the end of the 12-month period. A customer who is entitled to a demand meter shall not be required to pay rental or other separate charges for such meter.

Where a demand meter is installed, the demand charge shall apply when the customer's monthly use exceeds 2,000 kilowatt-hours or his demand exceeds 10 kilowatts in three of the twelve months preceding the billing month. The demand charge shall continue to apply until the customer's monthly use has not exceeded 2,000 kilowatt-hours and his Maximum Demand has not exceeded 10 kilowatts in any month of the preceding 16-month period, at which time the in lieu of demand charge shall apply, except for a customer who has requested a demand meter and has elected to be billed the demand charge.

Prior to application of the demand charge, the customer being billed in lieu of demand charges will receive notification on the customer's bill each time the above 2,000 kilowatt-hours or 10 kilowatt requirement has been exceeded and the significance of it.

(Continued on Sheet No. 26)

– Font and Format May Vary – Content is Identical –**

**RATE 6
GENERAL SERVICE**

(Continued from Sheet No. 25)

MEASUREMENT OF DEMAND AND KILOWATT-HOURS SUPPLIED.

Where two or more metering installations are provided on the customer's premises, the demand in any 30-minute period shall be determined by adding together the separate demands at each metering installation during such 30-minute period except that (a) in case the demand at any metering installation is registered by an indicating or cumulative demand meter, the demand at such installation in each 30-minute period of any month shall be assumed to be the same as the highest demand in any 30-minute period of such month, and (b) the demand at any installation may be assumed to be 75 percent of the connected load if such connected load is 2 kilowatts or less, and such demand is to be added to a metered demand. Where there are two or more watt-hour metering installations on the customer's premises, the kilowatt-hours supplied shall be determined by adding together the kilowatt-hours metered at each installation, provided that where the kilowatt-hours at any such installation exceed 5,500 in the billing month and are not metered in such a manner as to permit determination of the hours during which they were delivered, for purposes of applying the time of day provisions of this rate, such kilowatt-hours shall be considered to have been delivered in Energy Peak Periods. If the energy use at such installation is 5,500 kilowatt-hours or less in the billing month, the following charge per kilowatt-hour shall apply to such kilowatt-hours:

* Charge per kilowatt-hour 3.689¢

The Maximum Demands and kilowatt-hours supplied for two or more premises will not be combined for billing purposes hereunder.

Upon request, the Company will provide unmetered service for connected loads not exceeding 2 kilowatts where operation of the customer's equipment is continuous or is regularly scheduled on an annual basis. For the purposes of billing in such cases, the monthly kilowatt-hours shall be determined by multiplying the rated wattage (based upon nameplate or other appropriate data) of the connected loads by one-twelfth of the annual hours of operation and dividing by 1,000. All kilowatt-hours delivered to an unmetered point of supply shall be considered to have been delivered during Energy Peak Periods.

In the case of unmetered service for qualifying cable antenna television service locations, kilowatt-hour usage for billing purposes will initially be based upon 50% of the nameplate rating of the CATV power transformers directly connected to the Company's system; the monthly kilowatt-hours may also be determined by test at the Company's option or upon request of the customer. Tests must be conducted by or on behalf of the Company within 60 days of the customer's request. Kilowatt-hour use determined by test will be used prospectively only, will apply beginning with the billing period following the test and will continue until changed by further test or other appropriate data. The customer shall pay the Company's charge for any test done at its request, unless the test discloses fewer monthly kilowatt-hours than are being used for billing. In any event, the Company shall be entitled to test kilowatt-hour usage at the customer's expense once each year at each service location. The Company's charge for a test shall not exceed \$85.00.

For unmetered service for connected loads not exceeding two kilowatts and for qualifying cable antenna television service locations, notwithstanding other provisions of this rate, the charge in lieu of demand charge shall not apply, and instead a charge equal to the weighted average of the summer and non-summer demand charges per kilowatt divided by one-twelfth of the annual hours of operation of the load shall be applied to the unmetered monthly kilowatt-hours as above determined.

ADJUSTMENT OF DEMANDS.

In case the customer, as a result of seasonal or vacation variations in load, has an abrupt decrease of at least 50% in his Maximum Demand during the months of June through September, he will be entitled to the proration of demand charges in the billing period in which such decrease occurs, and if, in the same calendar year, he has a subsequent abrupt increase of at least 100% in Maximum Demand during such months, he will be entitled to the proration of demand charges in the billing period in which such increase occurs, provided that (1) a period of reduced demand continues for at least seven consecutive days immediately following the demand reduction for which proration is sought, and for at least seven consecutive days immediately preceding the demand increase for which proration is sought, (2) demands registered by an indicating or cumulative demand meter shall not be subject to such proration, (3) such proration will be granted only upon written request by the customer stipulating the date of such decrease or increase and received by the Company in advance of such date, and (4) that proration will be granted for only one such decrease and subsequent increase in each calendar year.

SERVICE FACILITIES – TIME OF DAY.

A standard installation furnished by the Company hereunder shall be determined by the provisions of the Company's Rider 6 except that the facilities so provided as standard shall be adequate only to supply service to a load equal to the maximum 30-minute demand of the customer established during the Demand Peak Period. If larger facilities are required to serve the excess of demand established during the Demand Off-Peak Period over the demand established during the Demand Peak Period, the customer shall pay, as optional facilities in accordance with the Company's Rider 6, the cost of any facilities so required. No optional facilities charges shall apply, however, to facilities existing and in place at the time the customer qualifies for service hereunder.

(Continued on Sheet No. 27)

ELECTRONIC REPLICATION OF SHEET ON FILE WITH ICC
– Font and Format May Vary – Content is Identical –

**RATE 6
GENERAL SERVICE**

(Continued from Sheet No. 26)

* **OPTIONAL GENERAL SERVICE – TIME OF DAY.**

Customers with Maximum Demands of less than 500 kilowatts may elect to be billed in accordance with the provisions of General Service – Time of Day. Any customer may elect Time of Day service by written application to the Company. Election of this option will be for a minimum of 12 months. Customers electing service under this option must pay the General Service – Non-Time of Day Monthly Customer Charge and an additional monthly charge for the special metering required in excess of that metering considered standard for General Service – Non-Time of Day, in accordance with the Company's Rider 7 – Meter Lease, as revised from time to time. The energy and demand charges of General Service – Time of Day apply to this option.

OPTIONAL FIXED SUMMER PERIOD FOR GRAIN DRYING.

Customers, who have grain drying facilities used in an agricultural operation, served hereunder may, upon written request, elect to have the rates for such service which are normally applicable to the Summer Months, as defined herein, applied instead to a fixed summer period beginning May 16 and ending September 15, inclusive. Such request must be received by the Company prior to February 15 of the first year for which the fixed summer period is to be applicable. The Company will install metering equipment capable of recording the energy and demand usage during such fixed summer period. Demand charges will be prorated in billing months during which summer demand charges apply during only a portion of the month.

Customers electing service under this option must pay an additional monthly charge for the special metering required, in accordance with the Company's Rider 7 – Meter Lease, as revised from time to time. Such additional charge will begin with the first bill based on a regular ending meter reading date on or after May 16 and shall continue for a minimum of twelve regular billing periods. Once a customer has elected this option, such charges shall apply during successive 12-month periods unless the customer requests in writing by February 15 of any year that he no longer desires this option.

TERM OF CONTRACT.

For customers first receiving service hereunder, the initial term of contract shall be 24 months. Upon expiration of the initial or any renewal term of contract hereunder, the customer's contract shall be automatically renewed for a period of 12 months.

A new contract, with an initial term of 24 months, shall be required whenever the Company is called upon to provide additional or different facilities to serve a demand greater than that specified in the customer's then effective contract, and the term of such new contract shall commence at the beginning of the month next following the date when the facilities installed to serve the increased demand become available for service.

The customer shall have the right to terminate his contract and discontinue service from the Company at any time on 30 days' written notice to the Company; provided, however, that in the event of such termination all amounts due the Company shall forthwith be paid.

GENERAL.

- * Nothing in this rate shall be deemed to preclude a residential occupancy on the customer's property from being served as a separate customer on a residential rate.
- * Energy Peak Periods, for purposes hereof, shall be the hours of 9:00 a.m. to 10:00 p.m. on Monday through Friday, except on days on which the following holidays are generally observed: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day and, if one of the foregoing holidays occurs on a Tuesday or Thursday, the immediately preceding Monday or immediately following Friday, respectively. Energy Off-Peak Periods shall be all other hours.
- * Demand Peak Periods, for purposes hereof, shall be the hours of 9:00 a.m. to 6:00 p.m. on Monday through Friday, except on the holidays designated above. Demand Off-Peak Periods shall be all other hours.

The Schedule of which this rate is a part includes certain general Terms and Conditions and Riders. Service hereunder is subject to these Terms and Conditions and the Riders applicable to this rate.

**RATE 6L
LARGE GENERAL SERVICE**

APPLICABILITY.

This rate is applicable to (1) any commercial, industrial, or governmental customer with a maximum 30-minute demand of 1,000 kilowatts or more established during the Demand Peak Periods in three of the twelve months preceding the billing month except that for Heating with Light customers the 30-minute maximum demand shall be as measured at any time during the month, (2) successors to customers served under these charges immediately prior to the date of succession whose estimated 30-minute demands meet the demand requirements in clause (1) above, (3) new customers whose estimated 30-minute demands meet the demand requirements in clause (1) above, and (4) any customer previously billed hereunder pursuant to clauses (1) or (2), except as otherwise provided below.

If a customer at one time was served pursuant to (1) above on Large General Service – Time of Day and has a Maximum Demand which (A) has not exceeded 800 kilowatts in any month of the 16-month period preceding the billing month, or (B) has not equaled or exceeded 1,000 kilowatts in any month of the 24-month period preceding the billing month, such customer may elect, in written application to the Company, to be served on Rate 6, General Service. Rate 6L, Large General Service – Time of Day, shall not again be applicable until such customer qualifies for such rate under clause (1) above.

The Large General Service – Heating with Light charges shall be applicable only to customers or their successors with electric space heating taking service under the Heating with Light provisions of Rider 25 prior to November 23, 1977.

A Large General Service – Heating with Light customer will be allowed to take Large General Service – Time of Day service upon written application to the Company. Once changed to Large General Service – Time of Day service, those customers or their successors will not be allowed to return to Large General Service – Heating with Light.

(Continued on Sheet No. 29)

**RATE 6L
LARGE GENERAL SERVICE**

(Continued from Sheet No. 28)

APPLICABILITY (CONTINUED).

* Notwithstanding the aforementioned provisions of this Applicability section, beginning with the June 2003 monthly billing period, this tariff shall not be applicable or available to any retail customer determined to have electric power and energy requirements of 3,000 kilowatts or greater, except that

- (a) through the end of the May 2006 monthly billing period this tariff shall be applicable to any such retail customer that had commenced service hereunder on or before the first day of the customer's June 2003 monthly billing period and has continuously taken service hereunder since such commencement of service, and
- (b) through the end of the May 2006 monthly billing period this tariff shall be applicable to any such retail customer that, prior to commencing service hereunder had never taken service under any tariff offered by the Company, had commenced service hereunder after the first day of the customer's June 2003 monthly billing period, and has continuously taken service hereunder since such commencement of service, and
- (c) through the end of the December 2006 monthly billing period this tariff shall be applicable to any such retail customer described in the aforementioned clauses (a) and (b) and in the following paragraph that additionally provides to the Company by December 1, 2005, an irrevocable binding notice of such customer's intention to continue to take service hereunder through the December 2006 monthly billing period.

* Additionally, notwithstanding the aforementioned provisions of this Applicability section, through the end of the May 2006 monthly billing period this tariff shall be applicable to any retail customer continuously taking service hereunder, that immediately prior to commencing service hereunder had been taking service under Rate RCDS – Retail Customer Delivery Service (Rate RCDS) with electric power and energy supply service from a Retail Electric Supplier (RES) pursuant to a contract between such customer and such RES, the current term of which commenced prior to November 14, 2002, and which extended beyond the first day of such customer's June 2003 monthly billing period, and such customer switched from such service under Rate RCDS to service hereunder at the expiration of the current term of such contract. However, service hereunder shall apply to such retail customer only if such customer identified itself by January 31, 2003, to the Company through the provision of a confidential affidavit from such customer and such RES which provided the expiration date of the current term of such contract and avowed that such current term commenced prior to November 14, 2002, and extended beyond the first day of such customer's June 2003 monthly billing period, with such affidavit subject to verification by an independent third party, at the Company's discretion, of the facts related to such contract dates. Moreover, service hereunder shall be available to such retail customer only if such customer

- (i) gave the Company an irrevocable binding written notice of such customer's intention to switch from such service under Rate RCDS to service hereunder
 - (A) by April 15, 2003, if the current term of such contract expired before the start of such customer's October 2003 monthly billing period, or
 - (B) at least one hundred eighty (180) days before such expiration if such expiration coincided with a Summer Month, as defined in the Charges section of this tariff, or
 - (C) at least ninety (90) days before such expiration if such expiration coincided with a monthly billing period other than a Summer Month, as defined in the Charges section of this tariff; or

(Continued on Sheet No. 30)

**RATE 6L
LARGE GENERAL SERVICE**

(Continued from Sheet No. 29)

APPLICABILITY (CONTINUED).

- * (ii) gave the Company a written notice with an option to revoke such notice of such customer's intention to switch from such service under Rate RCDS to service hereunder
 - (A) by April 15, 2003, if the current term of such contract expired before the start of such customer's October 2003 monthly billing period, or
 - (B) at least one hundred eighty (180) days before such expiration if such expiration coincided with a Summer Month, as defined in the Charges section of this tariff, or
 - (C) at least ninety (90) days before such expiration if such expiration coincided with a monthly billing period other than a Summer Month, as defined in the Charges section of this tariff;and the following conditions apply to such revocable option:
 - (1) at the time the customer gives its notice to the Company, the customer shall also pay to the Company an amount equal to \$7.50 per kilowatt for each kilowatt of such customer's highest 30-minute demand for electricity established during Demand Peak Periods in the preceding twelve monthly billing periods prior to providing such notice, and
 - (2) at the time such customer exercises its option to revoke its notice, such customer shall pay to the Company an additional \$7.50 per kilowatt for each kilowatt of such customer's highest 30-minute demand that was used to determine the payment amount for the aforementioned item (1), and
 - (3) the customer must give the Company written notice that it will exercise its option to revoke its prior notice no later than sixty (60) days prior to the date that service hereunder would have commenced.
- * The Company shall determine which retail customers have electric power and energy requirements of 3,000 kilowatts or greater. A retail customer shall be determined to have electric power and energy requirements of 3,000 kilowatts or greater if (i) for any such customer that had been taking service from the Company during the preceding January through December monthly billing periods in each of the two preceding years, such customer's highest 30-minute demand for electricity established during Demand Peak Periods was 3,000 kilowatts or greater in three or more of such monthly billing periods in each of the two preceding years, or (ii) in the Company's reasonable judgment there exists comparable usage information or a sufficient basis to determine that such customer has electric power and energy requirements of 3,000 kilowatts or greater, or (iii) such customer had previously been determined to have electric power and energy requirements of 3,000 kilowatts or greater pursuant to either of the aforementioned clauses (i) or (ii). In determining which customers have electric power and energy requirements of 3,000 kilowatts or greater, the Company shall not consider customers taking service hereunder in conjunction with taking service under Rate 18 – Standby Service (Rate 18) or Rider GCB – Governmental Consolidated Billing (Rider GCB).
- * If a retail customer that had been determined to have electric power and energy requirements of 3,000 kilowatts or greater subsequently alters its requirements such that its highest 30-minute demand for electricity established during Demand Peak Periods has been less than 3,000 kilowatts in ten or more monthly billing periods during the preceding January through December monthly billing periods in each of the two preceding years, such customer may elect, in written application to the Company, and subject to the terms and conditions of the applicable tariff or contract provisions under which the customer is receiving service, to be provided service hereunder. Upon acceptance by the Company of such application, service hereunder shall be provided to such customer until such customer is subsequently determined to have electric power and energy requirements of 3,000 kilowatts or greater in accordance with provisions of the previous paragraph of this Applicability section.

* (Continued on Sheet No. 30.1)

**RATE 6L
LARGE GENERAL SERVICE**

(Continued from Sheet No. 30)

CHARGES.

Large General Service – Time of Day.

Monthly Customer Charge.

For customers with a Maximum Demand in any month during the most recent 12-month period, including the billing month, which is greater than 10,000 kilowatts:.....	\$524.61
For all other customers:	\$246.39

Demand Charge.

Charge per kilowatt for all kilowatts of Maximum Demand for the month:

Summer Months.

For the first 10,000 kilowatts.....	\$16.41
For all over 10,000 kilowatts.....	\$ 6.51

All Other Months.

For the first 10,000 kilowatts.....	\$12.85
For all over 10,000 kilowatts.....	\$ 5.03

For the purposes hereof, the Summer Months shall be the customer's first monthly billing period with an ending meter reading date on or after June 15 and the three succeeding monthly billing periods.

Energy Charge.

Charge per kilowatt-hour for kilowatt-hours supplied in the month:

During Energy Peak Periods	5.022¢
During Energy Off-Peak Periods	2.123¢

Large General Service – Heating with Light.

Monthly Customer Charge.

For customers with a Maximum Demand in any month during the most recent 12-month period, including the billing month, which is greater than 10,000 kilowatts:.....	\$524.61
For all other customers:	\$246.39

Demand Charge.

Charge per kilowatt for all kilowatts of Maximum Demand for the month:

For Summer Months	\$16.41
For All Other Months	\$12.85

For the purposes hereof, the Summer Months shall be the customer's first monthly billing period with an ending meter reading date on or after June 15 and the three succeeding monthly billing periods.

Energy Charge.

Charge per kilowatt-hour for kilowatt-hours supplied in the month:

For the first 30,000 kilowatt-hours	3.875¢
For the next 470,000 kilowatt-hours	2.881¢
For all over 500,000 kilowatt-hours	2.833¢

(Continued on Sheet No. 30.2)

**RATE 6L
LARGE GENERAL SERVICE**

(Continued from Sheet No. 30.1)

CHARGES (CONTINUED).

Late Payment Charge.

The late payment charge provided for in the Terms and Conditions of this Schedule of Rates shall be applicable to all charges under this rate.

Minimum Charge.

The minimum monthly charge shall be the Monthly Customer Charge.

Maximum Charge.

The average cost of electricity hereunder in any month, exclusive of the Monthly Customer Charge, shall not exceed the Maximum Charge per kilowatt-hour provided, however, that such guaranteed charge shall not operate to reduce the customer's bill to an amount less than the Minimum Charge.

The Maximum Charge per kilowatt-hour shall be: 20.502¢

MAXIMUM DEMAND.

Except as noted in the paragraph below, the Maximum Demand in any month shall be the average of the three highest 30-minute demands established during the Demand Peak Periods in such month, not more than one such demand to be selected from any one day.

For customers taking service under Large General Service - Heating with Light provision of this rate the Maximum Demand in any month shall be the average of the three highest 30-minute demands established at any time during the month, not more than one such demand to be selected from any one day.

MEASUREMENT OF DEMAND AND KILOWATT-HOURS SUPPLIED.

Where two or more metering installations are provided on the customer's premises, the demand in any 30-minute period shall be determined by adding together the separate demands at each metering installation during such 30-minute period except that (a) in case the demand at any metering installation is registered by an indicating or cumulative demand meter, the demand at such installation in each 30-minute period of any month shall be assumed to be the same as the highest demand in any 30-minute period of such month, and (b) the demand at any installation may be assumed to be 75 percent of the connected load if such connected load is 2 kilowatts or less, and such demand is to be added to a metered demand. Where there are two or more watt-hour metering installations, the kilowatt-hours supplied shall be determined by adding together the kilowatt-hours metered at each installation, provided that where the kilowatt-hours at any such installation exceed 5,500 in the billing month and are not metered in such a manner as to permit determination of the hours during which they were delivered, for purposes of applying the time of day provisions of this rate, such kilowatt-hours shall be considered to have been delivered in Energy Peak Periods. If the energy use at such installation is 5,500 kilowatt-hours or less in the billing month, the following charge per kilowatt-hour shall apply to such kilowatt-hours:

Charge per kilowatt-hour: 3.362¢

The Maximum Demands and kilowatt-hours supplied for two or more premises will not be combined for billing purposes hereunder.

(Continued on Sheet No. 30.3)

**RATE 6L
LARGE GENERAL SERVICE**

(Continued from Sheet No. 30.2)

MEASUREMENT OF DEMAND AND KILOWATT-HOURS SUPPLIED (CONTINUED).

Upon request, the Company will provide unmetered service for connected loads not exceeding two kilowatts where operation of the customer's equipment is continuous or is regularly scheduled on an annual basis. For the purposes of billing in such cases, the monthly kilowatt-hours shall be determined by multiplying the rated wattage (based upon nameplate or other appropriate data) of connected loads by one-twelfth of the annual hours of operation and dividing by 1,000. All kilowatt-hours delivered to an unmetered point of supply shall be considered to have been delivered during Energy Peak Periods.

SERVICE FACILITIES.

A standard installation furnished by the Company hereunder shall be determined by the provisions of the Company's Rider 6 except that the facilities so provided as standard shall be adequate only to supply service to a load equal to the maximum 30-minute demand of the customer established during the Demand Peak Period. If larger facilities are required to serve the excess of demand established during the Demand Off-Peak Period over the demand established during the Demand Peak Period, the customer shall pay, as optional facilities in accordance with the Company's Rider 6, the cost of any facilities so required. However, no optional facilities charges shall apply to facilities existing and in place at the time the customer qualifies for service hereunder.

ADJUSTMENT OF DEMANDS.

In case the customer, as a result of seasonal or vacation variations in load, has an abrupt decrease of at least 50% in his Maximum Demand during the months of June through September, he will be entitled to the proration of demand charges in the billing period in which such decrease occurs, and if, in the same calendar year, he has a subsequent abrupt increase of at least 100% in Maximum Demand during such months, he will be entitled to the proration of demand charges in the billing period in which such increase occurs, provided that (1) a period of reduced demand continues for at least seven consecutive days immediately following the demand reduction for which proration is sought, and for at least seven consecutive days immediately preceding the demand increase for which proration is sought, (2) demands registered by an indicating or cumulative demand meter shall not be subject to such proration, (3) such proration will be granted only upon written request by the customer stipulating the date of such decrease or increase and received by the Company in advance of such date, and (4) that proration will be granted for only one such decrease and subsequent increase in each calendar year.

(Continued on Sheet No. 30.4)

**RATE 6L
LARGE GENERAL SERVICE**

(Continued from Sheet No. 30.3)

TERM OF CONTRACT.

For customers first receiving service hereunder, the initial term of contract shall be 24 months. Upon expiration of the initial or any renewal term of contract hereunder, the customer's contract shall be automatically renewed for a period of 12 months. For customers receiving service under Rate 6 immediately prior to service hereunder, the unexpired term of contract under Rate 6 shall be the unexpired term hereunder.

A new contract, with an initial term of 24 months, shall be required whenever the Company is called upon to provide additional or different facilities to serve a demand greater than that specified in the customer's then effective contract, and the term of such new contract shall commence at the beginning of the month next following the date when the facilities installed to serve the increased demand become available for service.

The customer shall have the right to terminate his contract and discontinue service from the Company at any time on 30 days' written notice to the Company; provided, however, that in the event of such termination all amounts due the Company shall forthwith be paid.

- * Notwithstanding the aforementioned provisions of this Term of Contract section, a customer's contract for service hereunder shall terminate at such time that this tariff is no longer applicable or available to such customer as provided in the Applicability section of this tariff.

GENERAL.

Nothing in this rate shall be deemed to preclude a residential occupancy on the customer's property from being served as a separate customer on a residential rate.

Energy Peak Periods, for purposes hereof, shall be the hours of 9:00 a.m. to 10:00 p.m. on Monday through Friday, except on days on which the following holidays are generally observed: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day and, if one of the foregoing holidays occurs on a Tuesday or Thursday, the immediately preceding Monday or immediately following Friday, respectively. Energy Off-Peak Periods shall be all other hours.

Demand Peak Periods, for purposes hereof, shall be the hours of 9:00 a.m. to 6:00 p.m. on Monday through Friday, except on the holidays designated above. Demand Off-Peak Periods shall be all other hours.

The Schedule of which this rate is a part includes certain general Terms and Conditions and Riders. Service hereunder is subject to these Terms and Conditions and the Riders applicable to this rate.

- Font and Format May Vary - Content is Identical -

**RIDER 25
ELECTRIC SPACE HEATING**

Applicable to Rates 6, 6L, 24 and 87

AVAILABILITY.

This rider is available to any customer using the Company's electric service, through electric space heating facilities or a combination of such facilities and solar energy collectors providing space heating through heat exchangers, to provide all of the space heating requirements of his premises or any part of his premises which is sufficiently separated from the remainder so that there will be no material heat transfer between such part and the remainder. In no event will this rider be available for heating supplementary to that provided by other means.

* **CHARGES.**

Heating with Light.

This service is available to only those customers to whom the Heating with Light provisions were applied for billing purposes as of the effective date shown below. The electricity supplied for such lighting shall be deemed to have been supplied for space heating.

Charge per kilowatt-hour for kilowatt-hours supplied in the month:

Summer Months

For the first 30,000 kilowatt-hours7.146¢
For all over 30,000 kilowatt-hours.....6.891¢

All Other Months

For the first 30,000 kilowatt-hours6.568¢
For all over 30,000 kilowatt-hours.....6.331¢

No demand charge shall apply.

Space Heating – Other than Heating with Light.

Subject to the provisions set forth below, the charge for electric service supplied for space heating under this rider during the Non-Summer Months shall be the lower of:

(a) the following charge per kilowatt-hour:.....4.557¢

or

(b) the charges, under the customer's rate, for adding such service to the service otherwise supplied to the customer, except that such charge shall apply only to electricity supplied to facilities used exclusively for space heating or for a combination of space heating and cooling.

(Continued on Sheet No. 89)

**RIDER 25
ELECTRIC SPACE HEATING**

(Continued from Sheet No. 88)

CHARGES. (CONTINUED)

Summer Months.

For the purposes hereof the Summer Months shall be the customer's first monthly billing period with an ending meter reading date on or after June 15 and the three succeeding monthly billing periods. Non-Summer Months shall be all other monthly billing periods.

Late Payment Charge.

The late payment charge provided for in the Terms and Conditions of this Schedule of Rates shall be applicable to all charges under this rate.

COMBINED HEATING AND COOLING FACILITIES.

If the customer uses the Company's electric service for both space heating and cooling and such service is provided through common metering facilities, all of the electricity supplied for such purposes during non-summer months shall be deemed to be supplied for space heating.

WIRING REQUIREMENTS.

The wiring for all facilities to which electricity is supplied under the provisions of this Rider shall be arranged so as to permit separate measurement of the additional demands and energy use of such facilities if the charging provisions of this Rider are to apply.

GENERAL.

- * For the purposes of this Rider a customer qualifying for Heating with Light service may elect to treat as service for lighting, service for water heating and service to any auxiliary facilities used exclusively for heating. Any space heating customer (other than a heating-with-light customer) who, under prior provisions of this rider, had elected to treat water heating service in the same way as space heating service may continue to do so. The Company may at its option, however, terminate such treatment of water heating service by rearranging, at its expense, the customer's wiring and metering. In the case of a building transferring to this Rider which utilizes a common boiler system in existence prior to October 14, 1977, to provide all of the space heating and water heating requirements of the building, if it is impracticable to separate such water heating from the space heating, the electricity supplied for such boiler system shall be deemed to have been supplied for space heating.
- * Notwithstanding anything to the contrary in the rate schedule of which this Rider is a part, a customer may receive service hereunder for all of the space heating requirements of his tenants in a multi-occupancy building, and, if the customer qualifies for Heating with Light service, may receive service for such lighting in tenant-occupied spaces under the heating with light provisions above.

Except as specified above, all other provisions of the rate shall apply.
