

CALL FOR PAPERS

XI'AN JIAOTONG-LIVERPOOL UNIVERSITY, SUZHOU, CHINA 19-21 JUNE 2019

2019 XJTLU INTERNATIONAL CONFERENCE

ARCHITECTURE ACROSS BOUNDARIES

Boundaries in architecture become increasingly apparent when working in an international context. Boundaries can mean geographical borders or physical territories but also can refer to social, cultural and professional difference. Architectural practitioners working in an international or global context often find that while the projects are international, regulation and professional practice methods and procedures remain at the national level. The aims of this conference are to bring together practitioners, academics and professional bodies from across China and internationally to discuss the key issues, challenges/opportunities, surrounding architectural practice in the global context and showcase the innovative and best practice methods architects develop. The conference will build a platform to share knowledge and foster collaborations in order to develop research links and practice collaborations between professional bodies, academia and industry.

We welcome paper and poster submissions on topics belonging to, or “crossing the boundaries” of the below four themes, and more in general relating to international architectural practice around the world. Both practitioners and academics, including postgraduate research students, are encouraged to submit abstracts and/or posters illustrating research, critical reflections, best practices and case studies.

Theme 1. Trans-national Architecture: Global Practice in the Local Context

Theme 2. Architecture across Cultures: Making, Representation and Material

Theme 3. Education and Professional Practice across Borders

Theme 4. Future Cities, Sustainability, Workflows and BIM

超越边界的建筑

建筑领域的边界在国际背景下变得越发明显。边界既可以指地理或领域边界，也可以指社会、文化和专业差异。在国际或全球背景下工作的建筑从业人员常会发觉尽管建筑项目是国际性的，但建筑法规、专业实践方法和实践流程却仍停留在国家层面。本次大会的目的就是汇集来自中国和世界各地的从业者、学者和专业团体，在全球背景下围绕建筑实践讨论焦点问题和挑战机遇，同时展示由建筑师所开发的具有创新性的、最佳的实践方法。

我们十分欢迎您对以下四个主题的相关内容投稿。投稿内容也可以“超越”以下四个主题，从整体上涉及国际化的建筑实践。我们鼓励从业人员、学者以及研究生提交文章摘要和/或海报，对相关研究、批判性思考、最佳实践和案例研究做出阐述。

主题1. 跨国建筑：本土语境下的全球实践

主题2. 跨文化建筑：制作、表现和材料

主题3. 跨边界的教育和职业实践

主题4. 未来城市、可持续性、工作流程、建筑信息模型（BIM）
