Commissioning Engineer Portland, Oregon

Achieving together what none can do alone.

Join our team in our mission to enable more sustainable development.

Rowan Williams Davies & Irwin Inc. (RWDI) is an international consulting firm of engineers and scientists specializing in building performance, climate engineering and environmental engineering. We bring extensive experience and expertise to green building and energy efficiency. From project conception through to completion, we leverage the knowledge and skills of our engineers and scientists to ***Redefine Possible.***

We are looking for a skilled **Commissioning Engineer** to join our Commissioning team in our Portland office. This is a **full-time position**.

As a Commissioning Engineer you will:

- Champion the Commissioning process
- Perform building commissioning for both new and existing buildings
- Visit job sites to verify building system installations meet design requirements and intent
- Provide troubleshooting and diagnostic support on various building systems
- Lead the investigation phase of an existing building commissioning process
- Perform energy usage analysis
- Make energy efficiency recommendations and suggestions for improvements
- Prepare commissioning and energy audit reports
- Communicate with project team members for scheduling, document collection and project status purposes
- Support the implementation of business development and delivery strategies to help grow the commissioning and energy services lines
- Track industry developments and innovations to ensure RWDI' ability to deliver relevant services and innovative deliverables

We welcome your application if you have:

- Graduated from a related **technical college** or **university program**
- **3+ years** of commissioning experience
- Knowledge of HVAC&R, building codes and standards, LEED, and ASHRAE
- Strong written and oral communication skills
- Excellent Computer Skills (MS office package minimum)
- Ability to develop and deliver programs and data collection systems

In addition, the following skills and experience will be seen as an asset:

- Work independently with minimal direction
- Handle pressure well with multiple demands and projects

Please submit your cover letter and resume at the following link:

<http://rwdi.com/people/careers>

Compensation:

- Competitive salary
- Group health benefits
- Annual bonus program
- 401K program
- 3 weeks' vacation
- Paid sick days

Thank you in advance for your application.

Only candidates selected for an interview will be contacted.

RWDI endorses and practices the principles of equal opportunity employment.

We are committed to diversity and inclusion.

Accommodations are available during all stages of the recruitment process.
